DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following is a listing of some of the 112, second paragraph problems with the claims. However, this is not meant to be an exhaustive listing; all such problems must be corrected:

In claim 7, lines 8-17, the claim is directed towards a process but no method steps are positively recited in the claim. There are misplaced modifiers and ambiguous prepositional phrases, rendering the intent of the applicant indiscernible.

In claim 8, the phrase "for prosecuting only by the bottom face of the photopolymer plate" is vague and indefinite. It is not clear what is meant by the term 'prosecuting.'

In claim 9 it is not clear what steps applicant is positively reciting. This claim also includes misplaced modifiers, ambiguous prepositional phrases and inappropriate punctuation (such as the commas around 'only' in line 9), rendering the intent of the applicant indiscernible.

Similar problems are present in the remainder of the claims.

Due to the extensive 112, second paragraph problems with the claims, prior art could not be accurately applied at this time. Once these problems have been overcome, any appropriate prior art will then be applied.
